<ul style="list-style-type: none"><li>Developed and maintained the company website and client dashboard using React and Node.js.</li><li>Built secure, database-driven systems for scheduling, client requests, and employee records.</li><li>Implemented responsive UI/UX for seamless use across devices.</li><li>Integrated REST APIs to ensure smooth front- and back-end communication.</li><li>Automated internal processes, boosting efficiency and data accuracy.</li><li>Ensured site security, performance, and reliability through regular updates and optimization</li></ul>	

## EDUCATION

**Bachelor in Computer Engineering**  
United Technical College

**2023 – Expected 2027**

## PROJECTS

### Twitter Clone | Real-Time Social Media Platform with User Authentication

- Developed a feature-rich social media clone focusing on core functionalities like post creation, real-time feed updates, and secure user sessions using the MERN stack. Demonstrates expertise in complex routing and scalable UI/UX design.

### NepMulti Store Enterprise Website | Full-Featured E-commerce Platform with Admin Control

- Built a comprehensive e-commerce platform including product listing, shopping cart, and secure checkout. Integrated a dedicated admin panel for efficient product and inventory management using a Node.js/Express backend and MySQL database.

### End-to-End Chat App | Secure, Multi-User Real-Time Messaging Application

- Designed and deployed a secure messaging application featuring direct and group chats. Utilized WebSockets (e.g., Socket.io) for instant message delivery and ensured secure data transmission and user authentication.

## ADDITIONAL INFORMATION

### Technical Skills:

- Frontend:** React.js, HTML5, CSS3, JavaScript (ES6+), Responsive Design
- Backend/API:** Node.js, Express.js, RESTful APIs, Secure Authentication (JWT)
- Databases:** MongoDB, MySQL
- Tools/DevOps:** Git, GitHub, VS Code, CI/CD Principles
